general clamor. On the other side we hear shouts of "Who does MacArthur think he is?"

Here we have an example of the mob psychology which governs the thinking of many American people today. This has become a bandwagon world. Why bother to investigate the facts of a case when someone else is shouting about it so loudly-he must be right.

Have we forgot that God has endowed man with reason and free will? These essentials in man's nature carry with them an obligation—an obligation which rests heavily on youth today, particularly on college students.

Are we at Clarke developing this ability to think—to think for ourselves? Or do we preface our statements with: 'Well, I don't know, but, so-and-so

says . . .''?
The "gang age" is indicative of adolescence, but how many Clarke girls can make a move unless aided and abetted by at least six friends?

America desperately needs thinking people—people who don't follow sensationalism, who don't follow the crowd,

to me, but the source of my information is none other than the omniscient Dorothy Culhane, so of course it must be true: Did you know that Teresa Rohner, Carol Dammann, Yolanda Adams you know that I clear Rolling tadpoles in their rooms? It seems that Sister Mary Ann Pauline offered the dear little subdeb frogs to any girl who promised to give them a good home, so these maternal-minded Clarkites adopted the tadpoles. Yolanda and Noma have no less than sixty of 'em in their room, and although they both profess complete enchantment with their wriggly guests, I wonder if sometimes they aren't afraid to go to sleep for fear they'll wake up with a frog in their throats..

has been Liz Loosbrock's favorite color for quite awhile, but now it's certain to stay in first place for life. Liz received her diamond from Jim Kelly, Loras, last week, and the juniors rejoiced. Now that Liz has The juniors distinguished themselves for the third consecutive blazed the trail, look for a rash of diamonditis to break out among the class of '52. or Essay or Dante or Ethics assignments, but whatever it is, something is bothering Peggy Ward. Not long ago at breakfast Peggy was grimly juggling a cup of coffee as she marched to her table, but didn't quite succeed in setting it down intact. After she finished blotting Bobbie Lou Meigh's skirt and emptying the steaming Sanka from her own saturated shoe, she plunked herself down in disgust. With a sigh she reached for the sugar bowl and promptly overturned the whole thing on the table-which didn't sweeten her friends' dispositions any. And they really raised an cyebrow when that noon, while sitting in the Union, Peg suddenly tipped over the table, the chair, and herself. The last straw came a few days ago when she was in the library and just as abruptly took flight from her chair and landed flat on the floor. Maybe Peg's just trying to prove man's fall-ability, or perhaps she's aiming for a new kind of a-Ward like, say, "The Purple Knee." At any rate, all aspiring gymnasts are urged to watch Peg from now on. "A Ward to the wise is sufficient."

Pooh Spelled Backwards . . .

is "hoop" (in case you're dying to know), and the Clarkites in The Heiress are mighty hoop-ful that the play will be a success. All the feminine roles demand king-size hoop skirts, and so the girls have to hoop-it-up even during rehearsals to learn how to manage them. Ginger Brown and Marianne McCarthy realize even more than the rest of the cast how much acrobatics the billowy skirts demand. They're alternating in the title role, which requires a romantic scene or two with the hero, and they've had to learn how to play a very tender moment standing fully a yard away from said hero and leaning precariously towards him. Well, if "love conquers all" I suppose the girls don't have any need to give up hoop.

at one point during the SLC Congress when they received the faculty report on the Activities Committee's recommendations. One admirable-if a bit naive-proposal the Committee had the feminine members of the cast marching down the corridors with some peculiar object

time, and still tall be when the tucks are let out, a dinner dress.

Jackie Matkey and Jackie Dailey take some Dubuque orphans on a picnic. A lovely, charitable activity, the delegates thought. The faculty comment on that their costumes, which Sister designed particular recommendation was succinct and memorable: "We feel that these children would never be more thoroughly orphaned than on the afternoon they were taken on a picnic by a Clarke girl and a Loras boy. Could we suggest that a faculty member accompany each couple for the care and feeding of the orphans? The delegates' hilarity finally died down, but even now, for at least forty Clarkites, "orphan" has a very peculiar connotation.

Now the sleek light-blue sedan is parked prominently—and immovably—in front of the Ad building, and Martha can only pause before it and give it a loving, lingering pat on the hood. It does add "atmosphere" to the campus even if you can't drive it, Martha, so our advice to you for the time being is, "Let Olds acquaintance be forgot . . .'
